ENDOWRIST®
STAPLER 30
FOR THE DA VINCI® XI SURGICAL SYSTEM

SURGEON CONTROL & AUTONOMY
FULLY WRISTED ARTICULATION
SMARTCLAMP FEEDBACK
**EndoWrist® Stapler 30 for the da Vinci Xi® Surgical System**

The Stapler 30 Curved-Tip provides enhanced placement and visualization around tenuous vasculature. Combined with the da Vinci Xi Surgical System’s crystal clear 3DHD vision, access, and surgeon control and autonomy, the EndoWrist Stapler 30 naturally expands the da Vinci stapling portfolio.

**SURGEON CONTROL & AUTONOMY**
Positioning, gripping, clamping, and firing of the EndoWrist Stapler are completely controlled through the da Vinci Surgeon Console.

**FULLY WRISTED ARTICULATION**
The EndoWrist Stapler has the greatest side-to-side articulation currently available, with a range of 108° total side-to-side. And unlike other staplers currently available, the EndoWrist Stapler articulates through a range of 54° total up-and-down, providing a fully-wristed cone of articulation.

**SMARTCLAMP FEEDBACK**
SmartClamp feedback reduces the guesswork associated with conventional stapling. Prior to firing, SmartClamp detects if the Stapler jaws are adequately closed on the tissue for the installed reload color.

---

**Important Safety Information**
Serious complications may occur in any surgery, including da Vinci® Surgery, up to and including death. Examples of serious or life-threatening complications, which may require prolonged and/or unexpected hospitalization and/or reoperation, include but are not limited to, one or more of the following: injury to tissues/organs, bleeding, infection and internal scarring that can cause long-lasting dysfunction/pain. Individual surgical results may vary. For Important Safety Information, indications for use, risks, full cautions and warnings, please also refer to www.davincisurgery.com/safety and www.intuitivesurgical.com/safety.

The EndoWrist® Stapler 30 for the da Vinci Xi® System (IS4000) is not compatible for use with the da Vinci, da Vinci S, or da Vinci Si Surgical System. The EndoWrist Stapler 30, and EndoWrist Stapler 30 Reloads for the da Vinci Xi System are intended to be used with the da Vinci Xi Surgical System (IS4000) for resection, transection, and/or creation of anastomoses in General, Thoracic, Gynecologic and Urologic surgery. The device is indicated for adult and pediatric use. The device can be used with staple-line or tissue-buttressing materials.

The EndoWrist Stapler 30 and EndoWrist Stapler 30 Reloads for the da Vinci Xi System should not be used on tissue such as the liver or spleen, where tissue compressibility is such that clamping of the instrument would be destructive. Do not use the EndoWrist Stapler 30 or EndoWrist Stapler 30 Reloads for the da Vinci Xi System on the aorta.
